

Acoustic Simple Baffle Ceiling System

PRODUCTS SHEET

Acoustic Simple Baffle Ceiling System

Acoustic Simple Baffle Ceiling System are vertically suspended from the ceiling to significantly reduce horizontal sound wave dispersion by disrupting airflow. With all sides exposed, they offer maximum sound absorption without interfering with lighting, HVAC systems, or other ceiling installations.

These high-performance acoustic baffles can be integrated into virtually any space and adapt seamlessly to existing interior designs. Available in depths of 15cm, 20cm, 30cm, and 40cm, they come in a standard range of colors, sizes, and designs. Custom solutions are also available with support from our expert team.

Simple Baffle are ideal for reducing reverberation and improving acoustics in spaces such as offices, boardrooms, call centers, music studios, classrooms, lecture halls, sports and community centers, cinemas, retail spaces, and other key areas dedicated to work or leisure.

SIZE

6 standard shapes. Custom also available.

Lengths

1200, 1800mm, 2400mm

Height

15cm 20cm, 30cm, 40cm

Thickness

9mm, 12mm, 18mm, 20mm, 24mm

Custom sizes available upon request
