PRODUCT GUIDE 2026

FROM FIBER TO FELT. FROM FELT TO SPACE.

CUPALA

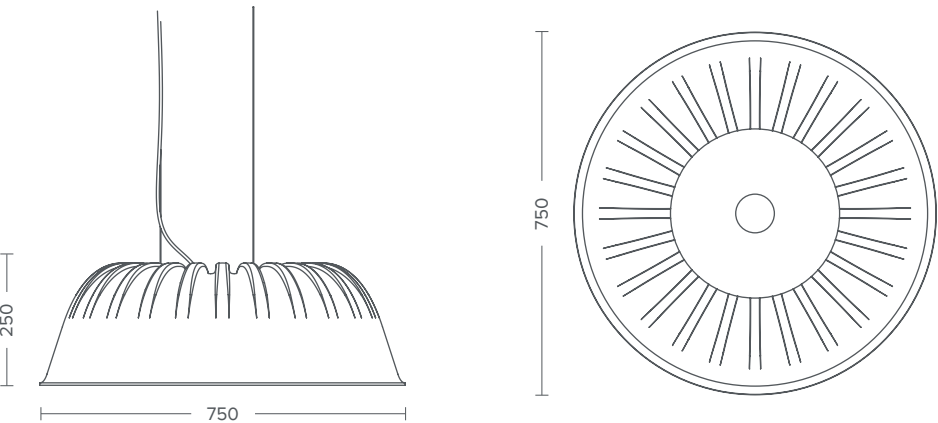

Acoustic Pendant Light

Cupala combines sculptural lighting with acoustic comfort in a distinctive pendant form. Made from sound-absorbing PET felt, its ribbed dome helps reduce reverberation while adding depth, texture and a warm architectural presence.

Designed for workspaces, meeting areas, dining spaces and hospitality interiors, Cupala brings light, material and sound together in a single suspended element, enhancing the atmosphere while supporting a more comfortable acoustic environment.

ARCLINE

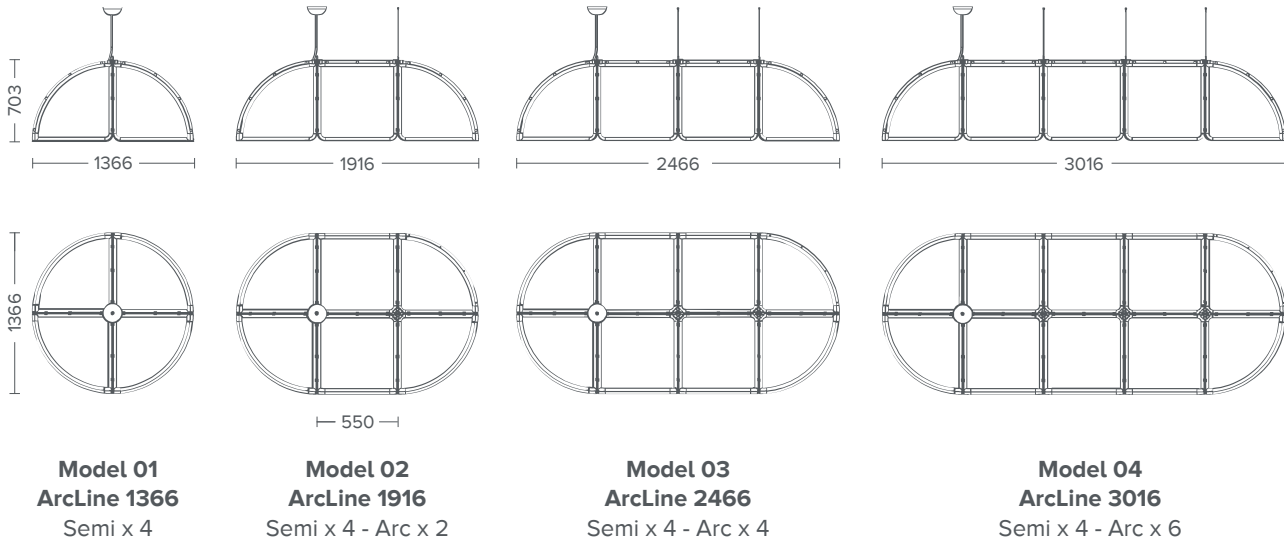

Acoustic Pendant Light

ArcLine is a modular acoustic pendant system composed of overlapping dome-like PET felt sections arranged in a linear configuration. Its exposed fixings and gently curved geometry create a distinctive architectural form while the generous felt surface helps reduce reverberation and improve acoustic comfort.

Available in multiple lengths and configurations, ArcLine can be adapted to dining tables, meeting areas, collaborative spaces and larger interior settings where lighting and acoustic treatment are required within a single suspended element.

FELTHALO

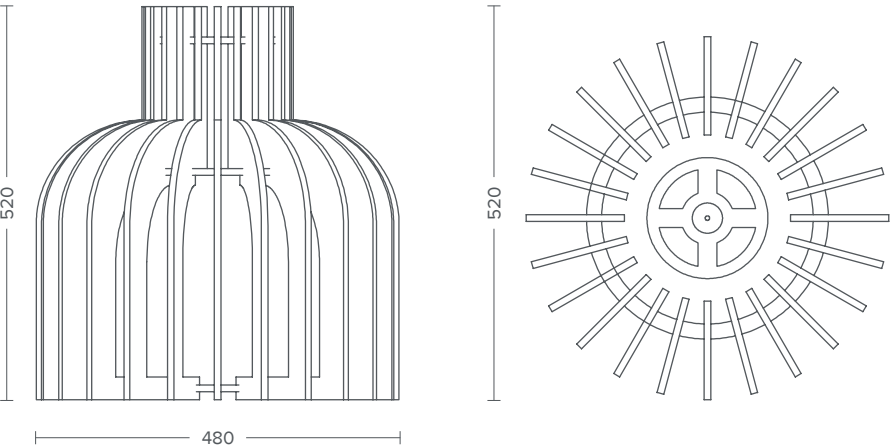

Acoustic Pendant Light

FeltHalo Acoustic PET Felt Pendant Light features layered, curved felt fins arranged around a central light source, creating a lightweight sculptural form with integrated acoustic function. Its rounded profile reveals a different character from every angle, while producing subtle variations of light and shadow across the surrounding space.

The PET felt fins help absorb reflected sound and reduce reverberation, contributing to a more comfortable acoustic environment. At the same time, the soft material and layered geometry bring warmth, color and visual depth to meeting areas, dining spaces, reception zones, hospitality interiors and residential settings.
