**ACOUSTIC PET FELT  
PENDANT LAMPS**

# Acoustic PET Felt Cupala Pendant Lamp

## Natural form. Acoustic comfort.

The Cupala pendant combines distinctive design with acoustic comfort. Made from sound-absorbing PET felt, the lamp helps soften surrounding noise while creating a calm and inviting atmosphere beneath its protective dome.

Its carefully crafted ribbed surface adds depth and texture to the form, introducing a subtle sense of movement and playfulness. Whether placed above a workspace, meeting table, or dining area, Cupala enhances the interior with both visual character and improved acoustic comfort.

By combining lighting, acoustic performance, and sustainable materials, the Cupala becomes more than a lamp, it becomes an architectural element that shapes the atmosphere of a space.

## TECHNICAL SPECIFICATIONS

**Dimming:** Depends on bulb and dimmer compatibility

**Acoustic Performance:** Sound-absorbing PET felt structure helps reduce reverberation and improve acoustic comfort

**Application Areas:** Dining areas, Restaurants and cafés, Office spaces, Meeting rooms, Cultural and public spaces

# Acoustic PET Felt Dome Pendant Lamp

## Natural form. Acoustic comfort.

The Dome Pendant Lamp combines contemporary design with sustainable materials, creating a warm and refined atmosphere in any interior. Designed to hang above dining tables, meeting areas, or lounge spaces, it introduces a natural and elegant focal point.

Made from 100% recycled PET felt produced from plastic bottles, the lamp reflects a commitment to sustainable design while offering a soft, modern aesthetic.

Beyond its visual character, the felt structure improves acoustic comfort by absorbing sound and reducing reverberation, helping to create quieter and more comfortable environments. This makes the Dome Lamp an excellent choice not only for homes but also for restaurants, cafés, offices, and cultural spaces.

Balancing design, sustainability, and functionality, the Dome Pendant Lamp serves as both an architectural lighting element and an effective acoustic solution.

## TECHNICAL SPECIFICATIONS
