VIBE DUO

Double-Layer Wall Panels

Vibe Duo brings together acoustic performance and visual depth through a refined double-layer PET felt construction. Precision-cut patterns on the top layer reveal a contrasting or complementary color beneath, creating a distinctive three-dimensional effect with added depth, shadow, and visual rhythm.

Beyond its strong aesthetic character, the layered construction provides effective sound absorption, helping reduce reverberation and improve acoustic comfort within the space. With a wide range of pattern and color combinations, Vibe Duo can be tailored to complement different interior concepts and design palettes.

Combining color, dimension, and acoustic performance in one versatile solution, Vibe Duo is ideal for offices, hospitality, commercial interiors, and residential spaces where sound control and architectural expression are equally important.

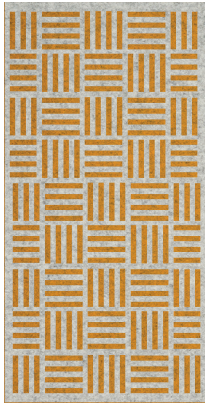

MOUNTING TYPE:

- Direct wall installation using adhesive or mechanical fixing systems.
- Excellent Acoustic Performance
- Quick & Easy Installation
- Elegant & Functional Acoustic Solution
- Vibrant & Dynamic Aesthetic
